65	21057	<u>Baishev University</u>		20235	8890

Webometrics is primarily a ranking of universities themselves, rather than university websites, that promote open access to knowledge produced by universities.

The ranking is regularly updated and provides valuable information for learners, teachers and universities.

The results achieved by Baishev University in the Webometrics ranking demonstrate its commitment to keeping up with the latest developments in higher education and providing quality education.
